FPIs turn net buyers in financial services sector

Invest nearly ₹14,000 crore in July and August after nine months of sell-off

NARAYANANV
Chennai, September 12

After nine months of intense sell-off in the banking and financial services equities, foreign investors have turned net buyers in the sector in the last two months.

As per latest NSDL data, foreign portfolio investors (FPIs) have pumped in a net investment of ₹1,014 crore in the Financial Services sector in July followed by ₹12,799 crore in August.

FPIs have been net sellers in the financial sector in every single month between October 2021 and June 2022, collectively pulling out ₹1,090-lakh crore. Prior to this, the foreign investors made a net investment of ₹1,428 crore in the sector in September 2021.

"The fundamental factors for the banking sector have improved in recent times. Banking system credit growth was 15.8 per cent in August compared to 9.7 per cent in March 2022. Pertinent to note growth is broad based across mid-cor-

porate, small corporate, retail and services. This indicates that the broader economy is doing well," said Sanjay Chawla, Chief Investment Officer - Equity, Baroda BNP Paribas Mutual Fund. "FPIs banks are well provided for stress assets and the loan book seems to be clean as compared to previous cycle. During the Covid-19 pandemic, most of the private banks have also raised capital and are well capitalised. On the asset and liability management (ALM) side, banks are also well positioned," Chawla added.

Massive outflow
In the overall market too, FPIs were net sellers between October 2021 and June 2022, recording a massive outflow of ₹2,46-lakh crore during this period. The foreign investors turned net buyers in July with a net investment of ₹4,589 crore and ₹51,204 crore in August, the highest monthly inflow in 20 months.

"In the context of the present slowdown in global growth, In-

Betting big on finance

Source: NSDL

dia has the best growth and earnings story for this year and next. So FPIs are back in India. Financials is among the best growth segments in India. For banks particularly, asset quality has improved significantly, and credit growth is now running at 14 per cent. There is clear visibility in earnings growth in financials," said VK Vijayakumar, Chief Investment Strategist, Geojit Financial Services.

IT sector

Historically, FPIs have been heavyweights in the banking and IT sectors. Although they

turned net buyers in the banking sector, FPIs are yet to make a big splash in the IT sector. After pulling out ₹35,583 crore from the sector during April and July, FPIs made a net investment of ₹397 crore in August.

"IT sector has not been the sought-after sector for a few months now. Many institutional investors feel that the prospects of the sector have taken a beating from the growth slowdown / recession fears in the developed world. There is fear that the likely recession will adversely impact tech spending by firms in the developed markets," Geojit Financial Services said.

Baroda BNP Paribas Mutual Fund's Chawla said the IT sector is also facing a host of challenges including employee cost (the biggest cost component of IT companies), elevated attrition in the sector, high wage inflation impact IT company margins and rupee depreciation against other currencies.

Other sectors which saw major FPI inflows in July and August include Healthcare (₹8,76 crore), FMCG (₹7,70 crore) and Telecom (₹6,61 crore).

Vedanta picks Gujarat for \$20-b chip project

REUTERS
New Delhi, September 12

Vedanta Ltd has selected Gujarat for its semiconductor project, two sources told Reuters, the first major step in its \$20 billion joint venture with Taiwan's Foxconn.

Vedanta obtained financial and non-financial subsidies including on capital expenditure and cheap electricity from Gujarat to build the semiconductor plants, the first source with knowledge of the matter said.

The project will include display and semiconductor facilities near Ahmedabad, the source added, declining to be named ahead of an official announcement.

While lobbying for incentives, Vedanta had sought 1,000 acres of land free of cost on a 99-year lease, and water and power at concessionary and fixed prices for 20 years, Reuters reported in April.

A spokesperson for Vedanta did not respond to a request for comment while Foxconn did not immediately respond.

An announcement is expected this week with a formal signing of a memorandum of understanding between the two sides, which is likely to be attended by Patel and Vedanta officials, the source added.

Chip shortage hits card issue by banks; CCI may initiate probe

KRSRIVATS
New Delhi, September 12

The difficulty faced by banks in government's providing RuPay cards to Pradhan Mantri Jan Dhan Yojana account holders may trigger a Competition Commission of India (CCI) probe into alleged cartelisation by chip suppliers.

This follows a representation by the Indian Banks' Association (IBA) to the government on the alleged cartelisation by chip suppliers.

The CCI is likely to take up the matter *suo motu* and initiate a probe as such a "shortage" can derail the government's flagship programme for financial inclusion, sources close to the development said.

Banks are learnt to have conveyed to the government that supply shortages have pushed up prices of chips globally, which has prompted local vendors to increase prices in breach of existing supply contracts.

"Government intervention has been sought on this matter," sources added. "The current demand for semiconductor chips is exceeding supply, affecting many industries, particularly automobiles, graphic cards, video game consoles, and computers. The shortage has led to steep price in-

empowers the CCI to examine anti-competitive practices, including cartelisation. Agreements between suppliers for fixing prices or for limiting supplies are presumed to affect competition. Apart from initiating probes suo motu, the CCI can also take up the matter on information filed by the IBA or on a reference by the government.

Global impact since Covid-19: The present global chip shortage is an outcome of global supply chain disruptions wrought by Covid-19 and exacerbated by the China-US trade war.

The demand for semiconductor chips is exceeding supply, affecting many industries, particularly automobiles, graphic cards, video game consoles, and computers. The shortage has led to steep price in-

creases as suppliers are alleged to be seizing the opportunity to jack up the prices.

"The increase in prices of semiconductor chips appears to be an outcome of market forces due to a mismatch in demand and supply, though cartelisation by suppliers in such a situation to earn supernormal profits by limiting supplies and increasing prices cannot be ruled out," a competition law practitioner told BusinessLine.

If found guilty of cartelisation by the CCI, chip suppliers may face stiff monetary penalties even up to 10 per cent of their average turnover for the preceding three financial years; or up to three times their profits for each year of the continuance of the cartel; or 10 per cent of their turnover for each year of the continuance of the cartel, whichever is higher.

Modern slavery on the rise in last 5 years: ILO

While forced labour accounts for 28 m, 22 m are trapped in forced marriage

SURABHI
New Delhi, September 12

The number of people in modern slavery, which could include both forced labour and forced marriage, rose sharply to nearly 50 million by 2021 globally from about 40 million in 2016 with the Covid-19 pandemic, armed conflicts and climate change disrupting employment and education and fuelling poverty.

The report on 2021 Global Estimates for Modern Slavery by the ILO indicates that 49.6 million people are in modern slavery on any given day, either forced to work against their will or in a marriage that they were forced into.

While forced labour accounts for 27.6 million of those in modern slavery, forced marriage accounts for 22 million.

The report highlighted that forced labour has grown in recent years.

Forced labour

"A simple comparison with the 2016 global estimates indicates an increase of 2.7 mil-

lion in the number people in forced labour between 2016 and 2021, which translates to a rise in the prevalence of forced labour from 3.4 to 3.5 per thousand people in the world," it said.

The increase in the number of people in forced labour was driven entirely by forced labour in the private economy, both in forced commercial sexual exploitation and in forced labour in other sectors.

The report noted that the initial months of the Covid-19 pandemic were accompanied by widespread reports of forced labour linked to the crisis.

"Disruptions to income because of the pandemic led to greater indebtedness among workers and with it reports of a rise in debt bondage among some workers lacking access to formal credit channels," it said, adding that the crisis also resulted in a deterioration of working conditions for many workers, in some cases leading to forced labour.

Among regions, Asia and the Pacific is host to more than half of the global total (15.1 million), followed by Europe and Central Asia (4.1 million), Africa (3.8 million), the Americas (3.6 million), and the Arab States (0.9 million).

Scale and manifestations of modern slavery

Asia and the Pacific region has the highest number of people in forced labour and the Arab States the highest prevalence

Forced labour by region: prevalence per thousand population

However, in terms of proportion of population, forced labour is highest in the Arab States (5.3 per thousand people), followed by Europe and Central Asia (4.4 per thousand), the Americas and Asia and the Pacific (both at

3.5 per thousand), and Africa (2.9 per thousand).

Forced marriage

The number of people living in a forced marriage increased by 6.6 million between 2016 and 2021.

The Covid-19 pandemic has also exacerbated the underlying drivers of all forms of modern slavery, including forced marriage, which often is linked to economic hardship, the report said.

For instance, Covid-19 limitations prohibiting large gatherings in India and Sudan unintentionally provided another incentive for child and forced marriages: the reduced cost of a smaller wedding.

Nearly two-thirds of all forced marriages, an estimated 14.2 million people, are in Asia and the Pacific.

This is followed by 14.5 per cent in Africa (3.2 million) and 10.4 per cent in Europe and Central Asia (2.3 million).

When the report accounts for the population in each region, prevalence of forced marriage is highest in the Arab States (4.8 per thousand population), followed by Asia and the Pacific (3.3 per thousand population).

NBFCs' assets growth likely to touch 4-year high in FY23: Crisil

OUR BUREAU
New Delhi, September 12

After three years of single-digit growth, non-banking financial companies (excluding housing finance companies, microfinance institutions and government-owned NBFCs) are expected to see their assets under management grow 11-12 per cent — a four-year high — to about ₹13 lakh crore by this fiscal end, riding on macroeconomic tailwinds, according to Crisil.

Disruption in business and economic activity amid Covid-19 had constrained AUM growth to 2-4 per cent in fiscals 2020 and 2021, and to about 5 per cent in fiscal 2022.

Krishnan Sitaraman, Senior Director and Deputy Chief Ratings Officer, Crisil Ratings, said, "Even as growth touches double digits again, it will be lower than the pre-pandemic level."

"AUM had logged a 3-year compound annual growth rate (CAGR) of close to 20 per cent through fiscal 2019. Intense competition from banks and the high interest rate scenario will limit the competitiveness of NBFCs in certain segments, leading them to focus on higher-yield segments for growth."

Coal Ministry to hold e-auction of 10 mines today

OUR BUREAU
New Delhi, September 12

The Coal Ministry on Monday said that it will launch the e-auction for 10 commercial coal mines on Tuesday. The technical evaluation of the bids has been completed.

"E-auction for eight coal mines will be conducted on September 13 and for two coal mines on September 14. Total peak rate capacity (PRC) of the mines being put up for e-auction is 39.31 million tonnes per annum (mtpa)," Coal Ministry said in a statement.

The Nominated Authority, Ministry of Coal has till now successfully auctioned 43 coal mines with PRC of 85.54 mtpa. The coal sector has been opened up for commercial coal mining in 2020 and the first ever successful auction of commercial mining was launched in June 2020.

Last month, Coal Minister Prithvi Joshi said that in the near future more than 107 coal blocks will be made available for auction.

India's cumulative coal production increased by 8.27 per cent (Yo-Y) to 58.33 million tonnes in August 2022 com-

Total peak rate capacity of the mines being put up for e-auction is 39.31 million tonnes per annum

pared to 53.88 mt in August 2021.

As per provisional statistics, during August, Coal India (CIL) and captive mines/ others registered a growth of 8.49 per cent and 27.06 per cent by producing 46.2 mt and 8.02 mt, respectively. However, SCL registered a negative growth of 17.49 per cent during the month.

Of the top 10 coal producing mines in the country, 25 mines produced more than 100 per cent while the production level of five mines stood between 80 and 100 per cent. By 2030, India's coal requirement will be 1.5 billion tonnes.

Air India to lease 30 new aircraft in next 15 months

OUR BUREAU
New Delhi, September 12

Air India has signed leases and letters of intent to induct 25 Airbus narrow-body and five Boeing wide-body aircraft to augment its existing fleet in the next 15-odd months, as it looks to ramp up both domestic and international operations.

This is the first major fleet expansion plan announced by the airline since the Tata Group took over the management and control of the carrier.

These new aircraft, which will enter service from late 2022, will increase the airline's fleet by over 25 per cent. Not counting the ten long-leased narrow-body and 55 wide-body aircraft that have been returned to service in recent months, these new aircraft mark the first major fleet expansion since Air India's acquisition by the Tata Group earlier this year," Air India said in a statement.

The aircraft being leased include twenty-one Airbus A320neos, four Airbus A320neos and five Boeing B777-300ERs.

"After a long time without significant growth, Air India is delighted to resume expanding its fleet and global footprint. These new aircraft, together with existing aircraft

This is the first major fleet expansion plan announced by the airline since the Tata Group took over the carrier

being returned to service, address an immediate need for more capacity and connectivity, and mark a strong step forward," Campbell Wilson, CEO and Managing Director, Air India, said.

Air India's narrow-body fleet currently stands at 70 aircraft, of which 54 are in service; and another 16 will "progressively return to service by early 2023".

The carrier's wide-body fleet currently stands at 43 aircraft, of which 33 are operational. The rest will return to service by early 2023.

Route expansion

The B777-300ER (Boeing's wide-body jetliner) will join the fleet between December 2022 and March 2023.

According to the statement, the Boeing aircraft will be deployed "on routes from In-

dian metro cities to the United States of America". For instance, Mumbai will see the addition of flights to San Francisco and the New York area's international airports, Newark Liberty and John F. Kennedy, Bengaluru will receive three times weekly service to San Francisco.

"These aircraft will result in Air India offering Premium Economy haul flights for the first time," the statement added.

The four A321 aircraft are expected to be inducted in the fleet in the first quarter of calendar year 2023 (Jan-Mar); while the 21 A320 will be inducted in the second half of 2023.

These flights will be deployed on domestic sectors as well as to short-haul international destinations.

Govt health expenditure fell from 1.35% of GDP in FY18 to 1.28% in FY19

Per capita govt health expenditure increased to ₹1,815

OUR BUREAU
New Delhi, September 12

The share of government health expenditure to India's GDP fell to 1.28 per cent in 2018-19, from 1.35 per cent in 2017-18, according to data released on Monday.

As per the National Health Accounts Estimates for India's data, the Centre's share in the total government health expenditure dropped to 34.3 per cent in 2018-19, from 40.8 per cent that was reported in the year-ago period.

On the other hand, the share of States' to government health expenditure went up to 65.7 per cent in 2018-19, from 59.2 per cent in the previous year.

The per capita government health expenditure increased to ₹1,815, as against ₹1,753 in the year-ago period.

Out-of-pocket expenditure
Out-of-pocket expenditures are those that are made directly by households or family or an individual at the point of receiving healthcare.

The out-of-pocket expenditure as a percentage of the total health expenditure also fell to 48.2 per cent (from 48.8). Incidentally, 2018-19 was a pre-Covid

Total health expenditure includes current and capital expenditure of government and private sources, including external funds

Total health expenditure includes current and capital expenditure of government and private sources, including external funds. Per capita out-of-pocket expenditure was ₹2,155.

Total health expenditure includes current and capital expenditure of government and private sources, including external funds. As per the data, the total health expenditure, fell to 3.2 per cent of the GDP in 2018-19, as against 3.3 per cent in the preceding year.

In 2013-14, total health ex-

അറിയിപ്പ്

വിഷയം : കമ്പനിയുടെ ഓഹരികൾ ഇൻവെസ്റ്റർ ഏയുക്കേഷൻ ആന്റ് പ്രൊമോട്ടർമാർക്ക് ഫണ്ട് (ഐഇപിഎഫ്) അതോറിറ്റിക്ക് കൈമാറുന്നതിന് മുന്നോടിയായുള്ള അറിയിപ്പ്.

കോർപ്പറേറ്റ് കാർഡ് മന്ത്രാലയം 2016 സെപ്റ്റംബർ 7 മുതൽ പ്രാബല്യത്തിൽ വരുന്നതിനായി (പിന്നീടുള്ള ദേശീയതകൾ ഉൾപ്പെടെ) ഐഇപിഎഫ് (അക്കൗണ്ടിംഗ്, ഓഡിറ്റ്, ട്രാൻസ്ഫർ, റീഫണ്ട്) ചട്ടം, 2016 ലെ വ്യവസ്ഥകൾക്കനുസൃതമായാണ് ഈ അറിയിപ്പ് പ്രസിദ്ധീകരിക്കുന്നത്. (ചട്ടം)

ഈ നിയമത്തിൽ പ്രതിപാദിച്ചിരിക്കുന്ന നടപടി ക്രമങ്ങൾ അനുസരിച്ച് തുടർച്ചയായുള്ള ഏഴു വർഷങ്ങളായി ഡിവിഡന്റ് കൈപ്പറ്റാത്ത ഓഹരി ഉടമകളുടെ ഓഹരികൾ ഇൻവെസ്റ്റർ ഏയുക്കേഷൻ ആന്റ് പ്രൊമോട്ടർമാർക്ക് ഫണ്ടിലേക്ക് മാറ്റുന്നതാണ്.

മേൽപറഞ്ഞ നിയമപ്രകാരം 2022-23 സാമ്പത്തിക വർഷം ഐഇപിഎഫ് അതോറിറ്റിക്ക് കൈമാറ്റം ചെയ്യേണ്ടതായ ഓഹരികൾ കമ്പനി, ബന്ധപ്പെട്ട ഓഹരി ഉടമകൾക്ക് വ്യക്തിഗതമായി അറിയിക്കുകയും, അത്തരം ഓഹരിയുടമകളുടെ വിവരങ്ങൾ കമ്പനി വെബ്സൈറ്റ് ആയ www.manappuram.com ൽ അപ്ലോഡ് ചെയ്യുകയും ചെയ്തിട്ടുണ്ട്. വിവരങ്ങൾ പരിശോധിക്കുന്നതിനായി ബന്ധപ്പെട്ട ഓഹരി ഉടമകളോട് അഭ്യർത്ഥിക്കുന്നു.

ഓഹരി ഉടമകൾക്ക് ഐഇപിഎഫ് അതോറിറ്റിയുടെ കൈമാറ്റം ചെയ്യപ്പെടുന്ന ഓഹരികൾ അത്തരം ഓഹരികളിൽ ലഭിക്കാവുന്ന എല്ലാ ആനുകൂല്യങ്ങളും ഉൾപ്പെടെ, ചട്ടങ്ങളിൽ നിർദ്ദേശിച്ചിട്ടുള്ള നടപടിക്രമങ്ങൾ പാലിച്ചതിന് ശേഷം ഐഇപിഎഫ് അതോറിറ്റിയിൽ നിന്നും തിരികെ ക്ലെയിം ചെയ്യാൻ കഴിയും.

മേൽപറഞ്ഞ നിയമപ്രകാരം സർട്ടിഫിക്കറ്റ് ദുപത്തിലുള്ള ഓഹരികൾ ഐ ഇ പി എഫ് ലേക്ക് കൈമാറ്റം ചെയ്യപ്പെടുന്ന പക്ഷം അത്തരം ഓഹരികൾ കൈവരുന്നതിനുള്ള ഓഹരി ഓഹരിയുടമകൾക്കു ചട്ട പ്രകാരം അവരുടെ പേരിൽ രജിസ്റ്റർ ചെയ്തിരിക്കുന്ന ഒന്നിനൽ സർട്ടിഫിക്കറ്റിന്റെ സാധ്യത നഷ്ടപ്പെടുന്നതാണ്. DEMAT ദുപത്തിലുള്ള ഓഹരികൾ ഐ ഇ പി എഫ് ലേക്ക് മാറ്റുന്നതിനായി കമ്പനി Corporate Action വഴി ഡെലോയിറ്റുകൾക്ക് നിർദ്ദേശം നൽകുന്നതാണ്. ഐ ഇ പി എഫ് അതോറിറ്റിയുടെ കൈമാറ്റാനുമതിയായി ബന്ധപ്പെട്ട കമ്പനി വെബ്സൈറ്റ് അപ്ലോഡ് ചെയ്ത വിവരങ്ങൾ, ചട്ടങ്ങൾക്ക് അനുസൃതമായി മതിയായ അറിയിപ്പായി കണക്കാക്കുന്നതാണ്.

ഈ അറിയിപ്പ് മുതൽ മൂന്ന് മാസത്തിനുള്ളിൽ കമ്പനിക്ക് ബന്ധപ്പെട്ട ഓഹരി ഉടമകളിൽ നിന്നും ഒരു ആശയവിനിമയവും ലഭിച്ചില്ലെങ്കിൽ ചട്ടങ്ങളിൽ പറഞ്ഞിരിക്കുന്ന നടപടിക്രമങ്ങൾ അനുസരിച്ച് കമ്പനി ഓഹരികൾ ഐഇപിഎഫ് അതോറിറ്റിക്ക് കൈമാറ്റുന്നതാണ്.

ഈ വിഷയത്തിൽ എന്തെങ്കിലും ചോദ്യങ്ങളുണ്ടെങ്കിൽ, അവർക്ക് കമ്പനിയുടെ രജിസ്റ്റർ ആന്റ് ചെയർ ട്രാൻസ്ഫർ ഏജന്റായ S.K.D.C. Consultants Limited "Surya" 35, Mayflower Avenue, Behind Senthil Nagar, Sowripalayam Road, Coimbatore - 641028, TN, India | Phone: +91 422 4958995, 2539835/ 836 | Mobile # Fax: +91 422 2539837 | Email: info@skdc-consultants.com എന്ന വിവരസമയത്ത് ബന്ധപ്പെടാവുന്നതാണ്.
